

NRCT Revolving Fund 2024 Seed List

Seeding Victoria is operating a Seed **Revolving Fund** to provide early remuneration for seed collectors, made possible through a Natural Resource Conservation Trust grant. For each of the species listed per region, 25% of the seed's wholesale price will be immediately paid to a collector up to the weight of the cleaned seed (grams) listed. The remaining 75% will be paid to a collector following the retail sale of their stored seed. This list may be periodically updated and re-issued to collectors, including additional species and weight adjustments, depending on seed received and demand for species over time.
